## PROFILE

I am currently pursuing a degree in Computer Science and have completed my Intermediate education with a specialization in Computer Science. I have practical knowledge of web development, particularly in PHP and Laravel, and I am continuously improving my skills in backend development. In addition, I have a good understanding of Meta (Facebook) Ads and digital marketing strategies. I am passionate about technology, eager to learn new tools and frameworks, and committed to building efficient and user-friendly web applications.

---
